SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O.Box 1450
Alexandria, VA 22313-1450

Applicants herewith enclose copies of five foreign patent documents (EP 0 778 263 among them is believed equivalent to WO 96/06068, copy enclosed, cited by the Examiner in his November 24, 2008 Non-Final Office Action) and one non-patent document, each of which was listed on a PTO Form 1449 submitted with their Information Disclosure Statement, mailed March 4, 2005 (copy enclosed), and acknowledged by the Examiner in his Non-Final Office Action of May 11, 2007. Unfortunately, each of these document identifiers had been lined out by the Examiner on the Form, as no legible copy of each reference had been available to him. Applicants sincerely regret that copies of these references had apparently inadvertently not been previously provided, which omission was only discovered during review of the file prior to payment of the issue fee.

Applicants also herewith submit copies of United States Patent 5,604,229 (believed equivalent to EP 0 627 406, cited in Applicants' March 4, 2005 IDS), first cited in the prosecution of the corresponding Japanese Application, and United States Patent 6,437,165 (believed equivalent to WO 02/18395, also cited

in Applicants' March 4, 2005 IDS), first cited in the prosecution of the corresponding Chinese Application.

Applicants appreciatively acknowledge the Examiner's generous granting of an interview to Applicants' Attorney on September 8, 2009 to discuss handling this submission, and respectfully request that these documents be considered by the Examiner with this Application, and that he return a copy of the initialed new PTO 1449 form, enclosed, which lists all of the references cited above.

No fee is believed due with these submissions, but Applicants authorize the United States Patent Office to charge any authorized fees related to this filing to Deposit Account 50-4255.

Respectfully submitted,

Dated: September 9, 2009
